

Mission Statement

.....

Our mission is to provide a home for individuals with developmental disabilities. We aspire to have all the necessary and desired services and supports to achieve integration in the community. We strive to increase independence in individuals so they may gain productivity based on their unique qualities. The process of service provision, helping, teaching, and guidance in decision making is done in a compassionate manner, promoting respect and dignity for the individuals served.

We provide services regardless of creed, color, sex, religion, disability, or national origin.

TRC's Residential Services are aligned with the TRC STARS initiative, designed to support all aspects of your life.

Services Provided

The Resource Center operates more than thirty homes across Chautauqua County. We provide a caring and comfortable atmosphere for each resident.

All of our staff are well trained, compassionate people. They provide support and assistance to enable individuals to attain their personal goals and desires. Staffing and safety supports are available and vary depending on the needs of the individuals' residing at each home.

The use of modern technology is introduced to individuals to assist in creating more independence within the home. Specific types of helpful technology are crafted to each individuals unique abilities, whether or safety or to learn to prepare meals independently.

Admission Criteria & Eligibility

To be eligible for The Resource Center housing, an individual must be developmentally disabled, as determined by the New York State Office of People With Developmental Disabilities (OPWDD).

Each residence has general and specific criteria for placement, based on the level of care that can be provided. Specialization of services may include residences for those who require 24-hour nursing.

Admission into TRC housing is based on priority need guidelines as determined by OPWDD. Additional considerations for placement include the individual's desires and needs, such as physical environment, location, house mates, and family wishes.

Personal tours can be arranged, and are recommended for any home in which an individual finds interest.

Housing Options

Our housing options include clinical services, where nursing services or psychology/behavioral therapy are offered. Individuals may access clinical services from The Resource Center clinics or outside agencies as well.

Opportunities

- learn new life skills
